1. IDENTIFICATION OF THE MATERIAL AND SUPPLIER

1.1 Product identifier

Product name: ARMASOUND RD 240
Synonym(s): ARMACELL ARMASOUND RD240

1.2 Uses and uses advised against

Use(s): ACOUSTIC INSULATION
Uses advised against: NONE KNOWN.

1.3 Details of the supplier of the product

Supplier name: ARMACELL AUSTRALIA PTY LTD
Address: 13 - 17 Nathan Road, Dandenong, Victoria, 3175, AUSTRALIA
Telephone: (03) 8710 5999
Fax: (03) 8710 5900
Email: info.au@armacell.com
Website: http://www.armacell.com.au

1.4 Emergency telephone number(s)

Emergency: (03) 8710 5999, 0418 607 066

2. HAZARDS IDENTIFICATION

2.1 Classification of the substance or mixture

NOT CLASSIFIED AS HAZARDOUS ACCORDING TO AUSTRALIAN WHS REGULATIONS

2.2 Label elements

No signal word, pictograms, hazard or precautionary statements have been allocated.

2.3 Other hazards

No information provided.

3. COMPOSITION/ INFORMATION ON INGREDIENTS

3.1 Substances / Mixtures

4. FIRST AID MEASURES

4.1 Description of first aid measures

Eye: Due to product form, exposure is considered unlikely.
Inhalation: Due to product form, exposure is considered unlikely.
Skin: Skin irritation is not anticipated. However, flush skin with running water if rash or irritation develops.
Ingestion: For advice, contact a Poison Information Centre or a doctor/physician. Do not induce vomiting.
First aid facilities: No information provided.
PRODUCT NAME  ARMASOUND RD 240

4.2 Most important symptoms and effects, both acute and delayed
None expected.

4.3 Immediate medical attention and special treatment needed
Treat symptomatically.

5. FIRE FIGHTING MEASURES

5.1 Extinguishing media
Use an extinguishing agent suitable for the surrounding fire. This may include dry agent, carbon dioxide, foam or water fog. Prevent contamination of drains or waterways.

5.2 Special hazards arising from the substance or mixture
Self-Extinguishing. However, may evolve toxic gases (carbon/nitrogen oxides and hydrocarbons) when heated to decomposition.

5.3 Advice for firefighters
No fire or explosion hazard exists. Evacuate area and contact emergency services. Toxic gases may be evolved in a fire situation. Remain upwind and notify those downwind of hazard. Wear full protective equipment including Self Contained Breathing Apparatus (SCBA) when combating fire. Use waterfog to cool intact containers and nearby storage areas.

5.4 Hazchem code
None allocated.

6. ACCIDENTAL RELEASE MEASURES

6.1 Personal precautions, protective equipment and emergency procedures
No personal protective equipment is normally required when handling this product. However, good hygiene practices require the use of gloves when handling spilled material. Most coated, cloth or leather gloves will provide adequate protection.

6.2 Environmental precautions
Avoid dispersal of spilled material to the environment.

6.3 Methods of cleaning up
Collect spilled material for reuse or disposal. Use proper manual handling techniques to avoid injury when handling large rolls of insulation.

6.4 Reference to other sections
See Section 8, Personal Protective Equipment.

7. HANDLING AND STORAGE

7.1 Precautions for safe handling
Before use carefully read the product label. Use of safe work practices are recommended to avoid eye or skin contact and inhalation. Observe good personal hygiene, including washing hands before eating. Prohibit eating, drinking and smoking in contaminated areas.

7.2 Conditions for safe storage, including any incompatibilities
Store in a cool, dry, well-ventilated area, removed from oxidising agents, acids, heat or ignition sources and foodstuffs. Large storage areas should have appropriate ventilation systems. Avoid release to the environment.

7.3 Specific end use(s)
Not applicable.

8. EXPOSURE CONTROLS / PERSONAL PROTECTION

8.1 Control parameters
Exposure standards
No exposure standards have been entered for this product.

Biological limits
No biological limit values have been entered for this product.
8.2 Exposure controls
Engineering controls Avoid inhalation. Use in well ventilated areas. No special precautions are required unless product is heated and fumes evolved. Where an inhalation risk exists, mechanical extraction ventilation is recommended.

PPE
Eye / Face Not required under recommended conditions of use. However, good safety practices may require use of safety glasses when handling.
Hands Good hygiene practices require use of gloves when handling.
Body Good hygiene practices require wearing of coveralls (or suitable protective clothing that covers exposed skin).
Respiratory Not required under recommended conditions of use.

9. PHYSICAL AND CHEMICAL PROPERTIES

9.1 Information on basic physical and chemical properties
- Appearance: BLACK RUBBER SHEET
- Odour: ODOURLESS
- Flammability: SELF-EXTINGUISHING
- Flash point: NOT AVAILABLE
- Boiling point: NOT AVAILABLE
- Melting point: NOT AVAILABLE
- Evaporation rate: NOT AVAILABLE
- pH: NOT AVAILABLE
- Vapour density: NOT AVAILABLE
- Specific gravity: NOT AVAILABLE
- Solubility (water): INSOLUBLE
- Vapour pressure: NOT AVAILABLE
- Upper explosion limit: NOT AVAILABLE
- Lower explosion limit: NOT AVAILABLE
- Partition coefficient: NOT AVAILABLE
- Autoignition temperature: NOT AVAILABLE
- Decomposition temperature: NOT AVAILABLE
- Viscosity: NOT AVAILABLE
- Explosive properties: NON EXPLOSIVE
- Oxidising properties: NON OXIDISING
- Odour threshold: NOT AVAILABLE

9.2 Other information
- Relative density: 2.5 g/cm³
- % Volatiles: NOT AVAILABLE

10. STABILITY AND REACTIVITY

10.1 Reactivity
Not data available.

10.2 Chemical stability
Stable under recommended conditions of storage.

10.3 Possibility of hazardous reactions
Polymerization will not occur.

10.4 Conditions to avoid
Avoid heat, sparks, open flames and other ignition sources.

10.5 Incompatible materials
No information provided.
10.6 Hazardous decomposition products
May evolve toxic gases (carbon/nitrogen oxides and hydrocarbons) when heated to decomposition.

11. TOXICOLOGICAL INFORMATION

11.1 Information on toxicological effects

Acute toxicity
Whilst no product toxicological information is available, this product is expected to be of low toxicity via oral, inhalation and dermal routes of exposure.

Skin
Not classified as a skin irritant.

Eye
Not classified as an eye irritant.

Sensitization
This product is not known to be a skin or respiratory sensitiser.

Mutagenicity
No evidence of mutagenic effects.

Carcinogenicity
No evidence of carcinogenic effects.

Reproductive
No evidence of reproductive effects.

STOT – single exposure
Not expected to cause organ effects from single exposure.

STOT – repeated exposure
Not expected to cause organ effects from repeated exposure.

Aspiration
This product is a solid and aspiration hazards are not expected to occur.

12. ECOLOGICAL INFORMATION

12.1 Toxicity
This product is not anticipated to cause adverse effects to animal or plant life if released to the environment in small quantities.

12.2 Persistence and degradability
Not data available.

12.3 Bioaccumulative potential
Not data available.

12.4 Mobility in soil
Not data available.

12.5 Other adverse effects
Not data available.

13. DISPOSAL CONSIDERATIONS

13.1 Waste treatment methods

Waste disposal
Reuse where possible or dispose of to an approved council landfill. Contact the manufacturer if additional information is required.

Legislation
Dispose of in accordance with relevant local legislation.

14. TRANSPORT INFORMATION

NOT CLASSIFIED AS A DANGEROUS GOOD BY THE CRITERIA OF THE ADG CODE, IMDG OR IATA

15. REGULATORY INFORMATION

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

Poison schedule: A poison schedule number has not been allocated to this product using the criteria in the Standard for the Uniform Scheduling of Medicines and Poisons (SUSMP).

Classifications: Safework Australia criteria is based on the Globally Harmonised System (GHS) of Classification and Labelling of Chemicals.

The classifications and phrases listed below are based on the Approved Criteria for Classifying Hazardous Substances [NOHSC: 1008(2004)].

Hazard codes: None allocated.

Risk phrases: None allocated.

Safety phrases: None allocated.

Inventory listing(s):

**AUSTRALIA: AICS (Australian Inventory of Chemical Substances)**
All components are listed on AICS, or are exempt.

**UNITED STATES: TSCA (US Toxic Substances Control Act)**
All components are listed on the TSCA inventory, or are exempt.

16. OTHER INFORMATION

Additional information:

EXPOSURE STANDARDS - TIME WEIGHTED AVERAGES: Exposure standards are established on the premise of an 8 hour work period of normal intensity, under normal climatic conditions and where a 16 hour break between shifts exists to enable the body to eliminate absorbed contaminants. In the following circumstances, exposure standards must be reduced: Strenuous work conditions; hot, humid climates; high altitude conditions; extended shifts (which increase the exposure period and shorten the period of recuperation).

WORKPLACE CONTROLS AND PRACTICES: Unless a less toxic chemical can be substituted for a hazardous substance, ENGINEERING CONTROLS are the most effective way of reducing exposure. The best protection is to enclose operations and/or provide local exhaust ventilation at the site of chemical release. Isolating operations can also reduce exposure. Using respirators or protective equipment is less effective than the controls mentioned above, but is sometimes necessary.

PERSONAL PROTECTIVE EQUIPMENT GUIDELINES:
The recommendation for protective equipment contained within this report is provided as a guide only. Factors such as method of application, working environment, quantity used, product concentration and the availability of engineering controls should be considered before final selection of personal protective equipment is made.

HEALTH EFFECTS FROM EXPOSURE:
It should be noted that the effects from exposure to this product will depend on several factors including: frequency and duration of use; quantity used; effectiveness of control measures; protective equipment used and method of application. Given that it is impractical to prepare a ChemAlert report which would encompass all possible scenarios, it is anticipated that users will assess the risks and apply control methods where appropriate.

Report status

This document has been compiled by RMT on behalf of the manufacturer, importer or supplier of the product and serves as their Safety Data Sheet ('SDS').

It is based on information concerning the product which has been provided to RMT by the manufacturer, importer or supplier or obtained from third party sources and is believed to represent the current state of knowledge as to the appropriate safety and handling precautions for the product at the time of issue. Further clarification regarding any aspect of the product should be obtained directly from the manufacturer, importer or supplier.

While RMT has taken all due care to include accurate and up-to-date information in this SDS, it does not provide any warranty as to accuracy or completeness. As far as lawfully possible, RMT accepts no liability for any loss, injury or damage (including consequential loss) which may be suffered or incurred by any person as a consequence of their reliance on the information contained in this SDS.
