

Armaflex® Ultima

Open Tubes

FLEXIBLE ELASTOMERIC WITH EXTREMELY LOW SMOKE PRODUCTION WHICH GIVES MORE PERSONAL SECURITY WHEN ESCAPING IN FIRES

- New: Open Tubes in fire class $B_L-s1, d0$
- Open Tubes is used as sheet for pipes with a maximum outer insulation diameter of $\varnothing 300$ mm
- For insulating pipes bigger than $\varnothing 89$ mm
- Stamped $B_L-s1, d0$ where "L" means that it is a linear insulation product for pipes
- Increased fire safety with the top fire class $B_L-s1, d0$ for flexible elastomeric insulation
- Extremely low smoke production with smoke class s1
- Contributes to greater overall fire safety
- Can be used in escape routes
