

ARMACELL APPLICATION TRAINING CENTRE

PROFESSIONAL APPLICATION TRAINING FOR THE INSTALLATION OF ARMAFLEX® INSULATION

- INSTALLATION TRAINING FOR ARMAFLEX® THERMAL AND ARMASOUND® ACOUSTIC INSULATION
- EDUCATION ON QUALITY ASSURANCE PROCEDURES
- ONSITE TRAINING AND AT ARMACELL TRAINING CENTRE
- ARMACELL INSTALLATION TRAINING COURSES FOR INSTALLERS

PROFESSIONAL INSTALLATION TRAINING

ARMACELL APPLICATION CENTRE

Comprehensive training programs to help installers, contractors and engineers gain a good understanding about the basic theory of insulation as well as best practice methods for optimum installation to:

- Save money, reduce material waste & time
- Achieve professionally-finished systems with reliable performance
- Less maintenance cost for the insulation system

QUALITY INSTALLATION BENEFITS

The reliability and effectiveness of an insulation system is affected by both the material as well as the installation workmanship. Armacell significantly emphasizes on educating installers to be conscientious about installation quality. Long term benefits are:

- Professionally-finished systems with reliable performance
- Condensation control, energy savings and cost reduction
- Long term system quality assurance

GET TRAINED FROM THE INVENTORS OF INSULATION

Get hands-on session, to learn the basics of insulation and various techniques for installing simple and complicated shapes

- Basic understanding on Thermal & Acoustic Insulation
- Pre-installation planning; tools and installation techniques
- Hands-on experience on ducting & piping applications
- Knowledge of specialized application, such as Mechanical protective systems or cryogenic applications

SPECIALIZED ON-SITE TRAINING SESSIONS

Specialized modules specifically created as per customer requirement for Quality Assured Armacell Systems

- Educate & Train the non-technical application team
- Ensure high level of quality insulation systems
- Problem solving techniques and tips to reduce scrap levels

ARMACELL QUALITY ASSURED SYSTEMS

ARMACELL CERTIFIED INSTALLERS

Armacell provides on-site and off-site training courses to the installers and shall receive special certification, on passing the qualification test

- Certifies high-level of proficiency in insulation installation techniques
- Armacell Certified Installer Certification
- Online and offline support through various application tools like manuals and videos

ARMACELL QUALITY ASSURED SYSTEMS GLOBALLY

**Albert Schweitzer Hospital
Dordrecht, Netherlands**

**Technical University Delft
Delft, Netherlands**

Venture Park, Thailand

Ruby Hall Clinic, Pune

MRF Plant, Sadashivpet

TCS Garima Park, Gandhinagar

Ford Engine Plant, Sanand

RELIABLE TECHNICAL SUPPORT

- Armacell is a global innovator in foam technologies
- Inventor of world's first flexible elastomeric foam, with more than 50 years of experience
- Armacell offers comprehensive insulation support to the design, selection and installation of the project
- Manufacturing facility in India since 2006

RELIABLE SUPPORT FOR YOUR PROJECT

- Armwin® is an online technical calculator developed for engineers and specifiers to select the ideal insulation material and thickness (<http://armwin.armacell.com>)
- Application engineers PAN India
- Application manuals and videos
- Product specifications, Safety Data Sheets, Test Certificates

COMPREHENSIVE PRODUCT RANGE

In addition to Armaflex® insulation material, Armacell offers a wide range of products and accessories, such as pipe supports (Armafix®), adhesives, tapes, UV paint, cladding, cleaners and knives

- Reduce the risks of thermal bridges and condensation
- Right tools for the right job
- Achieve a professional, aesthetically appealing finish
