

Armacell names Matrix Composites distributor in UK

Thimister-Clermont, 23 June, 2016 – Armacell Benelux has announced the signing of an agreement making Matrix Composites the distributor for its ArmaFORM PET foam core products in UK.

Armacell Sales & Marketing Manager Henri Chapelle comments: “This cooperation represents a great opportunity for us to further strengthen our presence in the UK composite markets, through Matrix Composites well-established customer base.”

About Matrix Composites

Matrix Composites was formed in 1997 as the UK distributor for the Sicomin range of epoxy resins. In the meantime, the product range has been completed by a number of other high-quality branded products, including company’s own range of Matrix 'essentials'. Today, Matrix Composites offers a complete range of materials for the high-performance, epoxy-based composite manufacturer from the automotive, marine, motorsport, industrial, offshore and chemical industries. Matrix Composites is a private company owned and run by its directors.

About Armacell Benelux S.A.

Armacell is a world leader in flexible insulation foams for the equipment insulation market and also a leading provider of engineered foams. In 2015, the company, which currently has approx. 2,800 employees and 23 production plants in 16 countries, generated net sales of 540.2 million euros.

Armacell Benelux S.A. is the headquarters for innovative and environmentally friendly structural PET foam cores for the composite industry, especially in target markets such as wind energy, building & construction and rail & road transportation. As a pioneer in the field of PET technology, Armacell was the first manufacturer to succeed in foaming high quality, bottle-grade PET on an industrial scale and qualifying PET foams for the composite industry.
