Armacell's new Singapore joint venture achieves ISO certification

- Full-service one-stop solution partner for demanding applications
- Offers manufacturing capabilities of customised solutions and prototypes
- Achieves ISO 9001 and ISO 45001 certifications

Luxembourg / Singapore, 8 December 2022 – Armacell, a global leader in flexible foam for the equipment insulation market and a leading provider of engineered foams, announced today that its recently established joint venture in Singapore has achieved ISO 9001 and ISO 45001 certifications.

Established in December 2021, Arma CS Solutions brings together Armacell's expertise with that of its partners in terms of materials, systems and market understanding. With this combined history and experience, the company is in an unparalleled position to deliver training and technical support as well as custom solutions to stakeholders in the construction, energy, industrial and transportation markets.

Armacell is pleased to announce that Arma CS Solutions meets the requirements and has been awarded ISO 9001:2015 and ISO 45001:2018 certifications. These internationally recognised standards acknowledge the quality management systems as well as the occupational health and safety management systems implemented in the organisation and manifests the company's commitment towards providing high-quality and consistent solutions to customers in the region.
