

As the inventors of flexible foam for equipment insulation and a leading provider of engineered foams, Armacell develops innovative and safe thermal, acoustic and mechanical solutions that create sustainable value for its customers. Armacell's products significantly contribute to global energy efficiency, making a difference around the world every day. With 3,100 employees and 25 production plants in 17 countries, the company operates two main businesses Advanced Insulation and Engineered Foams. Armacell focuses on insulation materials for technical equipment, high-performance foams for high-tech and lightweight applications and next generation aerogel blanket technology.

Supply Chain Manager

YOUR TASKS

We are looking for a driven and talented Supply Chain Manager who will strive to achieve our business growth strategy whilst overseeing Supply Chain processes, optimising production planning and procurement to maximise our efficiency and profitability.

You will execute Supply Chain Operations to achieve short and long term goals and manage the local S&OP process. You will ensure we have good service level agreements and are receiving the best quality in a timely manner. The role will involve participating in annual and long range budgets and strategies.

We're are looking for someone who will promote and embody our values, who isn't afraid of challenges and is driven to identify, manage, innovate, and move at a fast pace.

Here at Armacell we are always looking for ways to improve our current practice within Supply Chain through increasing efficiencies, effectively implementing savings, defining and driving KPI's and strategies.

OUR OFFER

- // Competitive Salary
- // Monday-Friday 8:30am-5pm (37.5 per week)
- // Holiday entitlement – 26 days + 8 bank holidays (Also Christmas Shut Down) – Pro-Rata
- // Pension Scheme (Armacell paying 6%)
- // Life Assurance
- // Flexi-time system
- // Annual bonus schemes
- // Cycle to work Scheme
- // Free secure on-site parking

YOUR PROFILE

- Hold or be studying towards Level 4 CIPS Qualification (or equivalent)
- At least 3-5 years Manufacturing Experience
- Production planning knowledge advantageous
- Previous experience of working at Senior Management Level
- Effective influencing and engaging skills
- Confident decision maker
- Able to communicate effectively and work in collaboration at all levels within the organisation and with external stakeholders – including suppliers
- Good IT Skills (SAP, Excel, PowerPoint)
- Project Management experience
- Interest in market dynamics (Packaging/Raw Materials)
- Advanced knowledge & understanding of operational controlling and finance matters
- Ability to deal with complex challenges resulting in positive results.
